EXPRESSION OF THOUGHTS

Mrs. Parker Gives an Entertaining Talk on Gesture.

Colonel Parker Discusses a Spell on Spelling—Praise Should Be for Effort and Not Result.

There are two hundred and twenty-five names upon the roll of attendance at the Summer School. Nearly all were present this morning.

Mrs. Parker continued with her most interesting discussion of the subject of expression of thought, by gesture and voice.

No one mode of expression will adequately take the place of any other mode. We value one mode of expression more than another through ignorance. Gesture and voice are the language of the baby before he can speak a word. The teacher who has the expressive power and who talks with her whole body is the successful one.

Gesture may be understood when not a word is comprehended. The highest art is to conceal art. One reason that the body should be trained in gesture is that any restriction of the body is a restriction of the thought.

Some of the most beautiful things in literature are ruined for the pupil by having them forced upon them. We have a mistaken idea of culture that we have taken from the English. People of widely different nationalities use the same gestures to express the same thoughts.

Speaking of Dickens, whom Mrs. Parker had the pleasure of hearing lecture, and the elder Salvini, she said they were masters of the art of expression. That Salvini appeared before audiences and held them spellbound during his acting although he was speaking in Italian.

Train the body by use. The child has the power, let him cultivate it.

While the lecture on expression and gesture was going on, Colonel Parker, from the audience, suiting the action to the word, gestured to his wife, meaning that she had been talking overtime. She replied to him both with gesture and speech which caused a ripple of laughter to pervade the interested teachers.

Spelling was the subject on which Colonel Parker spoke.

He said that Horace Mann called a spelling book a "spell book" because it held the pupils as under a spell. Spelling is the arrangement of the letters of a word in their correct position. The visual power of a child will be seen immediately upon the formation of the letters on the board. Spelling is a conventional thing and good spelling is a mark of good education. Spelling, even with the silent letters, is far easier than speech.

Under the impulse of thought have the child write the words. All praise should be for effort and not result. The teachers should have the child do things and then tell what he has done. The teacher writes what he has done on the board. The pupil is shown the writing and told that the words represent what he has done.

AT THE CYCLOMERE.

Bicycle Races and Tug-of-War Tomorrow Evening.

The Cyclomere meet for tomorrow evening gives promise of some good sport. G. A. Murdock of Southern California, a rider of great note, will make his appearance and ride with the professionals. Geo. Martin after a rest also appears again. The men have all been training hard and are in first class condition.

In addition to the races will be a tug-of-war between a team from Iwilei and a team from Auwaialimu. This will be a good contest, as it is to decide a wager between the two teams.

Mike O'Trilly has some brand new tricks to present which will please. The entries are as follows:

Professional 1 mile scratch and 2-3 mile handicap: Jones, Martin, Sylva, Sylvester, Johnson and G. A. Murdock. The amateur races are at the same distances as the professional. The entries are King, Cowes, Ludloff, Cunha, Long, Treadway, Souza, Santos,

Erickson, Gilman and Williams. The same officials will act who did so at the previous meet. The government band will be in attendance.
